

## Business Money Market Account Overview

Similar to a savings account, a money market account allows you to earn interest (or dividends) on your money while keeping it liquid, typically with higher returns and convenient access to funds. Your money is also federally insured up to \$250,000 by the National Credit Union Administration (NCUA).

### How you can qualify for our best rates

You're required to have a Patelco Business Checking account under the same member name to earn the higher tier rates based on your Business Money Market account balance, per the rate table below:

APY <sup>1</sup>	Rate	Minimum Deposit	Patelco Business Checking account required
4.50%	4.41%	\$250.00+	YES
4.00%	3.93%	\$100,000 to \$249,999.99	YES
3.50%	3.45%	\$50,000 to \$99,999.99	YES
3.00%	2.96%	\$25,000 to \$49,999.99	YES
2.50%	2.47%	\$5,000 to \$24,999.99	YES
0.05%	0.05%	\$0 to \$4,999.99	YES
0.05%	0.05%	\$0 to \$4,999.99	NO

**To obtain higher tier interest rates on your Business Money Market account, you'll need to open a Patelco Business Checking account** under the same member number as your Business Money Market account (no action is required if you already have a Patelco Business checking account).

If you do not meet the checking account requirement, you'll earn the regular savings rate of 0.05% APY. Rates are based on your daily account balance with monthly dividends, which will be deposited into your account at the end of each month.

### Account details
